**PARTENERI:  
*CONSAGRO CRAIOVA***

## ***Dear Colleagues,***

*On behalf of the organizing committee it is our pleasure to invite you to participate in the 18<sup>th</sup> **"DURABLE AGRICULTURE – AGRICULTURE OF THE FUTURE"** Annual Meeting to be held in Craiova, Romania, at the Faculty of Agronomy of the University of Craiova.*

*Craiova, Romania's 6<sup>th</sup> largest city and capital of Dolj County, is situated near the east bank of Jiu river, in central Oltenia. It is a longstanding political center, and is located at approximately equal distances from the Southern Carpathians (north) and Danube River (south). Craiova is the chief commercial city west of Bucharest and the most important city of Oltenia Region. The city prospered as a regional trading centre despite an earthquake in 1790, a plague in 1795, and a Turkish assault in 1802 during which it was burned.*

*The University of Craiova is the most important source of knowledge, creativity, and innovation from the region. The innovation effect, which it has to produce for the community and for the Euro-region is one of the main institutional objectives. Our university will become a strategic point of the regional economy and promoter of the competitive, participative, inclusive economy principles.*

*The University of Craiova was founded within the university center system in Romania in the second half of the 20<sup>th</sup> century, being, chronologically, the fifth university in the country, following the ones in Iasi, Bucharest, Cluj-Napoca, and Timisoara. The efforts to set up a university centre in the heart of the region of Oltenia were completed by the passing of the Law no. 138/April 25, 1947, thus permitting the founding and organization of the University of Craiova and its ephors.*

*Currently, UCV is a comprehensive institution, made up of 11 faculties, 34 departments, out of which 7 are autonomous and the others are subordinate to faculties, 37 research centres and 3 research institutes. The infrastructure of UCV is adequate (1 main building, 5 campuses, 12 halls of residence, more than 300 lecture theatres and seminar rooms, 255 laboratories, 1 university library and 14 individual libraries, 4 R&D units, 1 university club, etc.; qualified staff (946 teaching staff members and 215 non-teaching staff members, and 796 administrative and maintenance staff members assuring the quality of the services provided for students (17,052) and for society.*

*The first higher education institutions in Craiova, organized after the passing of the 1947 law, were: The Faculty of Agronomy, in 1947; The Agronomic Institute, in 1948; The Technical Institute, in 1951; the 3-Year Pedagogical Institute, in 1959. All these institutes constituted the University of Craiova, according to the Decision of the Ministers Council, no. 894/August 27, 1965 (published in the Official Bulletin no. 2 of the Socialist Republic of Romania, dated September 10, 1965).*

*The Faculty of Agronomy - University of Craiova is one of the oldest institutions of higher education in Romania, over time is concerned with ensuring an effective education, oriented society useful specialization. Currently, the Faculty of Agronomy in Craiova is a modern educational institution which carries out all forms of higher education. The number of students registered in our faculty in the academic year 2021/2022 is 1108.*

*In order to improve the education process, a special interest was laid upon the reformation of the higher education in accordance with the European Union regulations and the development of the cooperation and collaboration with other academic institutions in the country and abroad, within the European and extra-European area.*

*We hope we will all have a memorable and scientifically stimulating meeting in Craiova and we look forward to meeting you here in November 2022.*

***Welcome to Craiova, Romania!***

## **ARRIVING IN/DEPARTURE FROM CRAIOVA**

### **By air**

Your place of arrival in Romania will be most likely the International Airport Craiova (<http://www.aeroportcraiova.ro/>) or "Henri Coandă" International Airport near Bucharest. When you show your passport and visa to the immigration officers, you may be asked why you have come to Romania and also whether you have enough money to cover your costs of living plus a return ticket. You will avoid delays if you have all your papers handy: your passport and documents indicating your official acceptance by the university and your proof of financial support. Before you go through customs you can exchange money at a counter in the luggage-collecting hall. The exchange rate is almost as good as you will get anywhere. To proceed to Craiova, you can take a taxi/bus from the airport to the Railway Station (Gara de Nord) in Bucharest.

### **By rail**

If you wish to travel from Bucharest to Craiova by rail (<http://www.infofer.ro/>), you will have to leave from Bucharest Nord railway station. There are 250 km between Bucharest and Craiova and the journey will take you between 3 hours . We recommend you travel by the Rapid trains (fast) or Intercity, which stop only in a few stations.

A single ticket for Intercity ("Blue Arrow") costs approx. 72 Lei (14,5) EUR. The first class ticket for rapid train costs 106 lei (21,5 EUR).

NOTE: There are also other trains coming to Craiova during the day and night.

### **By car**

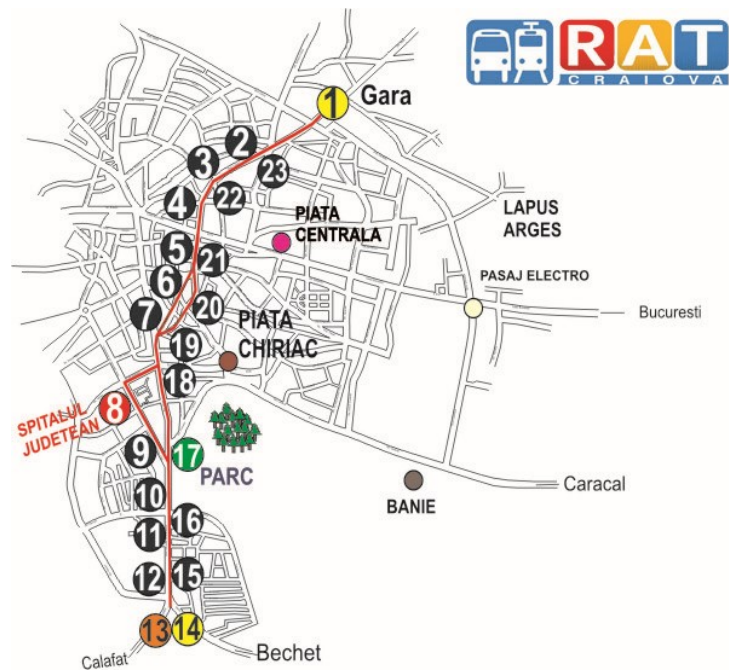

The trip by car to CRAIOVA is very nice and easy. Navigation coaches are not difficult if you have a [route map of Romania](#).

There are also regular buses that are running to/from Greece, Turkey, Czech Republic, Austria, Bulgaria, Serbia, Hungary, Italy, France, Spain and Germany.

### **Local transport**

For transport one can use bus, electric tram, maxi-taxi and taxi.

Tickets for buses, maxi-taxi and electric trams can be bought from the red-painted booths that are in most stops. You can also buy tickets from the drivers. Tickets should be punched immediately after you get on board. Bus/trolley/tram fare is 2,50 lei (RON) (2 Euro). Station – Facultatea de Agronomie (<http://www.rat-craiova.ro/>).

### **Taxi**

There are many taxi companies in town. They have quite a few types of cars, usually painted in yellow. Price is between 1,99 lei/km and 2,29 lei/km (about 2,18 EUR).

Starting price is about 1,99 lei 2,51 EUR).

Phone numbers: 0251- 953; 0251-542 727; 0722 142 727

### **Business hours (Shops, Banks, Post offices)**

Most of the shops in Craiova are open between 9:00 and 19:00 hours. During weekends, shops are open on Saturdays, between 9:00 and 14:00 hours. There are some non-stop supermarkets, too.

In general, banks are open from 9.00 to 16.00 hours from Monday to Friday. Post offices open at 7.00 and close at 20.00 hours.

### **Climate**

The Romanian climate is characterized by hot summers and cold winters. In November, there will be fairly hot days (above 15-18° C) and you will want to wear autumn clothes.

**Language:** Working language of the meeting is English; translations will not be provided.

**Facilities:** Overhead/slide projectors and PowerPoint projectors will be provided for the presentations. A computer room with internet connection will be open during the Conference.

### **Currency**

The legal tender is the Romanian Leu (RON). You will be able to change your money in hotels. The approximate exchange rate is 1 EUR = 4.9310 RON.

**Invitation letter/Certification of attendance:** If you need official invitation to obtain visa to attend the meeting, you must register for the meeting and submit abstract. For security purposes, letters will not be sent to attendees who do not meet these requirements. Invitation letters will not be processed until you have registered and paid for the registration fees. This letters will be provided to help participants rise conference attendance funding and to obtain visas.

All participants and accompanying person should have a valid passport.

A certificate of attendance will be given to the registered participants upon request.

**Abstract**

Tomatoes (*Solanum lycopersicum* L.), are one of the most consumed species in the world. Their fruits have a high vitamin, mineral salts and oligoelements

content, as a good human health support. Can be consumed as fresh products or processed as juice, sauce or ketchup.

Due to these properties, the way their harvests are obtained have to be managed properly. The study aimed to emphasize the importance of the soil analysis in order to establish an open field tomato crop. The trial was established in 2018 in Hanu Conachi, Galați department (45°35'8"N27°36'12"E).

There are presented observations and measurements on the soil content of the available macro-and micronutrients compared to the total nutrient content, for the establishment of the tomato crop. It can be observed that, for weak alkaline soils, the total phosphorous content versus the available phosphorous is 25 -30 times higher, due to the blockages with the soil cations. The analysis of the soil's texture showed variations within the same plot designated for the establishment of the tomato crop.
